

BIBLICAL PRINCIPLES OF GOVERNMENT

Government, Economics & History As You've Never Heard It Before

A CLASS TAUGHT BY MIKE WINTHER, PRESIDENT OF THE INSTITUTE FOR PRINCIPLE STUDIES

The Bible is more than our source of faith and practice. It contains God's wisdom for every area of life. Unfortunately, however, we often fail to take advantage of everything that the Bible has to offer.

Biblical Principles of Government will help you in your journey to build a more complete worldview based on biblical principles. Starting with the creation/evolution debate, you will learn to better defend the biblical creation account and you will learn why almost all other societal issues depend on this foundation. In the area of government, you will learn principles that were familiar to many of our founding fathers, but which have not been taught in American classrooms since before the Civil War.

This course will cover government, history, economics, education, charity, and the proper role in society of the family, the church, and the state. It will also cover good and bad decision-making processes and teach you to identify which is which.

This is an adult class, but it is still well suited for high school & junior high students. This is also a popular family class

that will create many positive family discussions, so we encourage whole families to take it together. Homework is very light, but by special arrangement a more thorough and rigorous homework load can be assigned.

REGISTRATION

Advanced registration is greatly appreciated. Register online by going to our website, www.principlestudies.org, and clicking the "register" link under the fall classes announcement.

COST

The class itself is free, but there is a \$16.00 charge for the study guide. Each student may want their own study guide, or family members may share one study guide. (For the cost conscious, this allows an entire household to take the 10 week course for only \$16.00.) When you register, please indicate the number of study guides that you wish to purchase.

For more information call (209) 575-2005 or email jannah@principlestudies.org. or visit our website at www.principlestudies.org for a list of FAQ's.
